

KEEP YOUR COINS IN A SAFE PLACE

What is CitaBit?

CitaBit is an ecosystem that simplifies cryptocurrency use, as well as providing usability and, at the same time, guaranteeing a high level of security of using cryptocurrencies by a common user. Our main priority is security of digital assets storage – we will provide unique solutions to protect the users' assets. Since the facts prove that many cryptocurrency projects are vulnerable to hacks, leaks, and other unfavorable actions.

Our Vision

Our vision is to lead a new industry and create a completely safe financial ecosystem. We will strive to create a first, convenient, and innovative universal platform for online banking, crypto trading, and secure storage of digital assets.

Problems

CitaBit team has done a deep research and resulted in the following conclusions:

Exchanges

- + Liquidity problems
- + High volatility of crypto assets
- + Earnings based listing scheme
- + Lack of security, widespread fraud and hacking attacks to exchanges and users
- + Low withdrawal speed
- + Lack of investors' knowledge
- + Work is not in the legal field

Banks

- + Lack of transparency
- + A large number of intermediaries
- + High fees
- + Bureaucracy and regional restrictions
- + Limited opportunities for investors

Solutions

CitaBit's idea is to develop an All-in-one solution providing users with the following benefits:

- + High security level
- + Low fees
- + Various banking services without intermediates
- + Virtual debit card to conduct cross border transactions without region limitations
- + A large number of trading tools
- + Work in the legal field

Citabit ecosystem:

3 services packed into one platform: a bank, a wallet and an exchange

CitaWallet

- + Multicurrency wallet
- + API for sending and receiving cryptocurrencies
- + Instant cryptocurrency withdrawals
- + Sending funds to the platform users by email
- + Opportunity to buy coins via bank transfers and credit cards and to withdraw them directly to cards or via international transfers (purchase and withdrawal of cryptocurrency at the current market exchange rate)
- + Digital safe®

CitaExchange

- + Various cryptocurrency pairs
- + Low latency trades
- + Margin trading
- + Payment codes (CITA codes)
- + Dark Pool
- + API for trading, withdrawing and depositing cryptocurrency

CitaBank

- + Worldwide coverage
- + Cryptocurrency as a payment method to cover purchases with a card
- + Bank deposits in euros and US dollars
- + Virtual and debit cards
- + Mobile Internet banking, and more...

CITA will be listed with different pairs in the CitaBit exchange. The token will be used to pay fees with a discount in the CitaBit ecosystem. All users will have a particular discount while making payments with the token. Those who have participated in the token sale will not pay fees in at all.
